

Argent Capital

## COMPANY PROFILE

# About Us

Argent Capital is a privately held investment company based in Sri Lanka.

We invest across asset classes and sectors as a structured fund.

# About Us

Since 2011, we have continuously thrived in financial markets by maintaining discipline with our investment philosophy that encourages & drives long term capital preservation. In a world abundant with investment opportunities, we find solace in high quality equities, which we believe defines long term wealth creation.

The future of technology is promising. Hence, we hold the managerial interest of investments across a range of software and high-end technology solution vendors. Our founder's entrepreneurial instinct with dimensional strategy approaches is the driving force for the entire team.

# Our Business Verticals

## Listed Equity

Equities are by default long term value creators, and we have aligned our investment approach with that. We are committed to create lasting value by leveraging operational expertise and vast industrial exposure.

## Real Estate

We invest in real estate located in places of strategic importance within the Sri Lanka. We believe in value creation through high-quality properties and redevelopment opportunities.

## Private Equity

We have investments in private equity across multiple industries which include but not limited to, Education, Healthcare, HR & Tech.

## AI-Driven Data Technology

Our mission is driven by optimism for the ideas powered by innovation. We invest in ambitious AI startups in the data analytics domain and be a part of driving a change.

## Advisory

Argent's latest venture is into translating our clear investment insights and philosophy into advice for clients interested in wealth creation.
